# The unique snack of Costa Rica

## OUR PRODUCTS

Produced in the lush, untouched town of Puerto Viejo de Sarapiquí located in the Northern Lowlands region of Costa Rica. This rugged and beautiful environment inspired our mission to create a range of snacks made from nature's finest ingredients. Here in this tropical paradise, each bite is lovingly crafted by awesome chefs for you and your loved ones.

Our succulent fruits and roots are harvested and selected by hand for perfect texture and maturity. These delightful all natural ingredients are gently fried into golden chips, each one delicately seasoned with natural flavours to produce an irresistible experience.

The chips are gluten free and contain no artificial colours or preservatives, only natural goodness and an abundance of great flavour. Thank you Mother Nature!
